- Please see the attached flyer for more details and registration information.
- [Washington DC and New York City 2023](#)
- Contact Stephen Schmitz for more information. stephen.schmitz@dcsdk12.org

★ TECHNOLOGY REMINDER

- We are reminding all our students of the following tech rules:
 - Phones are to be turned off between 7:30-2:45 pm
 - Phones are to be kept in backpacks (not in pockets or jackets)
 - If a student is caught with their phone, the policy is:

- 1st infraction: phone taken for the class period
 - 2nd infraction: phone taken for the day and **parents will receive an email from the team**
 - 3rd infraction: phone taken to office and student has a conversation with administration.
 - 4th infraction: phone taken to the office and a parent needs to pick up the device.
- If you need to contact your student during the school day, please call the front office. They will deliver the message.
 - If you are texting your student, it is disrupting our phone policy and can create uncertainty when students are communicating information that is unknown to the teacher/school.

★ SUPPLIES

- We are running a little low on the following items and appreciate any donations:
 - Tissues
 - Clorox Wipes
 - Pencils (students should be bringing their own, but we always appreciate a small surplus in case they forget)
 - Students can bring these supplies to any of the CORE teachers!!
 - Thank you to those that have already donated!

Two Week Overview of Assessments: <i>**Subject To Change- Check Google Classroom**</i>					
	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
This Week: 3/21-3/25					M7 & AM7 - Quiz on Angle Relationships & Surface Area

March 21 - 25

Math 7 and Accelerated Math 7:

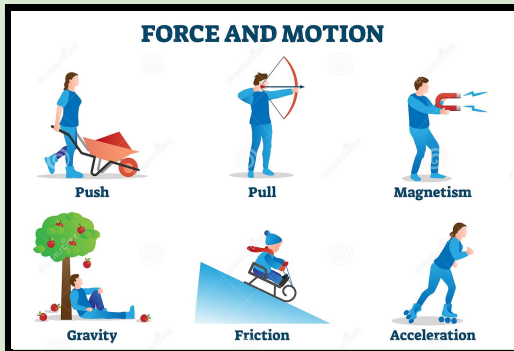

Both classes will be studying both Angle Relationships (supplementary, complementary, vertical, and adjacent) as well as surface area of 3-D objects. There will be a quiz on these concepts on Friday.

-Science ~ with Ms. Swiryn

gswiryn@dcsdk12.org

Big Idea: What happens when objects collide?

Welcome Back!! Newton's Laws continued. We will review Newton's First Law- (Inertia) and conduct small experiments that demonstrate an object in motion tends to stay in motion. That part is easier to understand. They will also experiment with an object at rest and why it stays at rest (and what is required to get it moving).

FORESHADOWING: Your child will need to raid the recycle bin for junk materials to create a car. I will fill them in during class and they won't start until after break but if there's anything good in there now.....grab it!

Social Studies

This week we will be focusing on the Holocaust by studying The Nuremberg Laws and looking at the conditions in different concentrations camps such as Auschwitz and Treblinka. I will be assessing students on their abilities to look at multiple sources, analyze them and construct history using them.

I have spoken with the kids about being respectful about different religions and why making Holocaust jokes is incredibly inappropriate. In early April, the 7th grade teams was lucky enough to secure a virtual holocaust speaker. More details to come as the date approaches.

Thank you for all your support at home. If you would like to contribute to the classroom I would greatly appreciate it. A few supplies we run through quickly are:

- Colored Pencils
- Crayons
- Scissors

7TH GRADE WELLNESS (PE/HEALTH) - Ms. Temple

Email: kmtemple@dcsdk12.org

Please click on the link below to see the daily assignments if you have Ms. Temple as your wellness teacher. (PE/HEALTH)

All assignments will be updated weekly. If you have any questions about your assignment, please email me.
